The Peak 2002

M

We see it every day on each quarter, dime, nickle or penny we put in our pocket. "E PLURIBUS UNUM." I don't suppose that any one of us has ever cared what those three Latin words signify. I mean, who cares; it's only on coins.

But those three words are meaningful and carry with them a powerful message that we feel today and will feel for the rest of our lives– "Out of many, one." Not only as Americans should we feel this way, but also as fellow classmates and friends of the class of 2002. In the near future we will be going our separate ways. We will head off to start our lives, but we will not be alone.

H

Our friends and our acquaintances will be next to us every step of the way. They will be there to offer their comfort and support. The one hundred and seventy-four individuals will come together as one, and walk into the future hand and hand.

"I've always had to run, I don't know just why. There's something waiting out there that says I've got to try... This town thinks I'm crazy; Sometimes they want to own me; Sometimes they wish I'd change. But I can feel the thunder underneath my feet. I sold my soul for freedom. It's lonely but it's sweet. Can't you see I'm going where I can see the sun rise? I've been talking to my angel and he says that it's alright."

To all my friends and everyone else, you know who I am. So here's my favorite Radiohead quote: "To kill a sawdust demon. This sort of demon is almost impossible to kill. The only way to do it is to cover its face with wet bread and karate chop its head off." Tyler Durden once said, "It isn't until you've lost everything that you're free to do anything." I think I really lost myself to become who I am today. What you thought you knew about me has totally changed these past 4 years. Wind
by Erica Jacobson

Up in heaven, there are great big fans.
When the angels turn them on, it creates wind.
The wind blows down to the earth.
The angels have a big control panel,
It has the names of every city in the world.
They press a button for the city
They want to have wind.
There are three levels of windiness
That they can choose:
Breezy, gusty, and hurricane.
They only use hurricane when they are mad at another
Angel and want to keep them
From returning to heaven.
We have wind so that the air
Is always changing.
It is bad to breathe Medfield air
Your entire life.
You also need Sherborn and Millis air.
To make sure that you get the right
Oxygen nutrients.

Whether it was coming up with a theme for this year's yearbook, meeting all the deadlines on time, or croping photographs of all our friends, we worked as a team. We have all worked extremely hard and hope you enjoy what we have done.

The Team to Beat

Although last year the field hockey team accomplished their goal of making tournament, this year they decided it was time to make their mark in the Tri-Valley League. Considered "the team to beat", the Medfield Warriors secured second place in the league. Besides achieving this feat, the girls earned a high seed in the tournament along with a home field for their first game. After crushing Case High School in an overwhelming victory, they traveled back down to Harwich where the season ended with an upsetting defeat after an intense game.

The success of the 2001 Field Hockey team was largely due to the leadership of co-captains Kristen Heavey and Kristin Moss, along with the 9 close-knit seniors. It also didn't hurt to have strong underclassmen, including league MVP Whitney Shean.

The girls bid farewell to the "Coach of the Year" Betsy D'Ambrosia, who is retiring after her 10th year of coaching, with a night game on a candle-lit field. It was an unforgetable season and the seniors would like to wish the team of 2002 good luck. We'll miss you! Remember: You're everywhere to me and keep running just as fast as you can!

FORE!

The 2001 co-ed Medfield High School Golf team, led by Seniors Jimmy McCloud, Connor Lennon, Tim Buckley, Pat Croke and Mike LaCerda, ended the season with a record of one match under 500. The young team was in the midst of a rebuilding year. Sophomore Steve Neidermeyer and freshmen Jeff Cutter, will be the up and coming stars. Captain's McCloud and Kristof won many crucial matches for the young Warriors. Lennon went undefeated in match play and Buckley was the emotional leader of the team. Look for thc young Warriors to be older and more mature in 2002. The Warriors will loose many valuable seniors, but look for the team to make a bid to get into next year's tourney play.

The Medfield Ice Warriors had a very successful season under the leadership of Coaches Panciacco, Banister, and Kay and with the captains Connor Lennon, Jimmy McCloud, and Patrick Cahill. The deep bench of aggressive offense and solid defense with the backing of goalies Brad Garnett and Matt McLean turned out to be a winning combination. After losing eleven players there was talk of concern around the TVL, but the team proved that this was not a rebuilding year! After qualifying for tournament with a win over the D.S. team, the seniors; Alex "Alman" Burrell, Chucky Mullen, and the captains, along with the rest of the team are looking forward to a deep tourney run!

If I can stop one heart from breaking,
I shall not live in vain;
If I can ease one life from aching,
or cool one pain,
Or help one fainting Robin,
Unto his nest again,
I shall not live in vain.

Closing

A moment may be temporary, but the memory will last forever

September 11, 2001 was another normal day for Medfield High School students...

Tragedy & Recovery

A new school year had just started. Sports were in session. Seniors dominated the halls and the new freshmen struggled to find their classes. September 11, 2001 was another normal day for Medfield High School students until hijacked planes unexpectedly crashed into both World Trade Center towers, the Pentagon, and a field in Pennsylvania. Side by side, Medfield students watched in horror as nineteen hijackers and Osama bin Laden changed American history forever. While a dark cloud lingered over Manhattan, we realized for the first time that our country was not invulnerable to international terrorism.

The days following the attacks brought Americans grief, fear, and frustration. Along with the rest of the nation, students at MHS united and demonstrated patriotism and pride in our country. Stickers and flags were placed on lockers, cars, book bags, and binders. During lunches, students collected money for the victims; the Literary Magazine produced a special edition of student reflections where proceeds went to relief efforts; Student Council organized a road race that raised over 7,000 dollars for the Cantor-Fitzgerald Relief Fund. In addition, Medfield participated in a national pride day where everyone wore red, white, and blue. With admiration, we watched thousands of fire fighters, policemen, doctors, and volunteers risk their lives. Their heroic efforts inspired us to use this newfound strength and determination to come *"from many into one,"* and to face our future with hope.

Take One Last Look...

As the year draws to a close, and the Class of 2002 prepares to leave the halls of Medfield High School forever, there is a tendency to look back and relive all the memories. Remember climbing the tire pyramid, wallball at recess, and Mr. Wiffin shaking the milk. Remember building rainforests, Halloween parades, Kids Night Out, and the Field Day Mud Pit. Remember the days of Weeples and shoe phones, the first dance where boys stood on one side of the gym and girls on the other, and the long awaited Washington D.C. trip. Remember four years ago when we were introduced to the pain of double sessions and went to our first semi-formal. And now, as seniors, the day we thought would never come is rapidly approaching: graduation. After attending all the sports games, drama productions, and concerts, cheering through every pep rally, and dancing at our last prom, it is time to move on. Those who dwell in the past miss what happens in the present; so take one last look at the faces that greeted you on the first day of kindergarten. We have grown up considerably since then, yet we have also grown closer, maintaining the ability to always have a good time together no matter what the situation. Over the past twelve years, we each have inevitably played a role in shaping our classmates into the people we are today. Of course, we will eventually forget these childhood memories and the familiar faces as we go our separate ways, yet we will always carry a small part of each other with us. Good luck Class of 2002!
